AB 1038, as amended, ~~Pan~~ Gray. Milk products: California Dairy Future Task Force.

Existing law authorizes the Secretary of Food and Agriculture to formulate stabilization and marketing plans that establish the prices to be paid by milk handlers for specified classes of market milk and requires a handler subject to a stabilization and marketing plan to pay an assessment to the secretary, as specified. Existing law requires that all moneys received by the secretary pursuant to these provisions be deposited into the Department of Food and Agriculture Fund, a continuously appropriated fund, and be used to defray expenses in connection with the administration of these provisions.

This bill would make specified legislative findings and declarations regarding challenges faced by the dairy industry and would state

specified intents of the Legislature *relating to the development of recommendations to assist the dairy industry to achieve long-term success and sustainability*. The bill would require the California Dairy Future Task Force, previously established by the secretary, to be continued in existence in order to evaluate and make recommendations on various issues relating to the specific purpose of developing a stable economic environment for all California dairy producers and processors. The bill would require that funding for the task force, not to exceed ~~an unspecified amount~~ \$500,000, be made available from assessment revenues paid to the secretary by handlers subject to a stabilization and marketing plan, subject to appropriation by the Legislature.

The people of the State of California do enact as follows:

- 1 SECTION 1. (a) The Legislature finds and declares all of the
- 2 following:
- 3 (1) The California dairy industry has been confronted with
- 4 numerous significant challenges in the past several years that have

- 10 ~~and other produce used to feed livestock, increasing environmental~~
- 11 ~~and regulatory costs, and decreasing water availability.~~
- 12 ~~(3)~~
- 13 (2) A concentrated focus on these challenges is essential so that
- 14 the California dairy industry may participate successfully in
- 15 domestic and international markets to the benefit of dairy producers
- 16 and processors alike.
- 17 (b) It is the intent of the Legislature that the Secretary of Food
- 18 and Agriculture actively engage the California Dairy Future Task
- 19 Force to develop recommendations intended to best position the
- 20 California dairy industry to achieve the goals of long-term success
- 21 and sustainability in a market that continues to evolve beyond the
- 22 scope of the current regulatory system with the addition of new
- 23 products and markets.

1 ~~(e) It is further the intent of the Legislature that these~~
2 ~~recommendations address current statutory and regulatory~~
